

TILT UP CONSTRUCTION

CPCCCM1016A Identify requirements for safe tilt up work

WHY ATTEND?

The aim of this training is to provide participants with the necessary knowledge and skills to equip them to safely work in tilt-up construction. The course provides meaningful theoretical instruction to help participants understand the hierarchy of hazard control and specific hazards associated with Tilt-up construction and the Code of Practice.

This course is a legal requirement for people that are involved in the manufacture, storage, transport, erection and tilt-up and pre-cast panels.

WHAT WILL YOU LEARN?

- Tilt-up construction risk management process
- Identification of hazards, and assessing and addressing risks
- Codes of Practice and Standards
- Maintain safety of self and others
- Emergency Response Procedures
- Access and usage of information relating to safe tilt-up construction

A Statement of Attainment will be awarded upon successful completion of course assessment requirements.
