Perth Builder Takes Home National Home Reno Award

Perth luxury home builders Zorzi Builders took home a National Excellence Award for their renovation of a decayed heritage listed home.

“Zorzi were awarded the National Luxury Alterations/Additions over \$500,000 Award at Master Builders Australia’s *National Excellence in Building and Construction Awards* on Saturday 14 November 2015,” Wilhelm Harnisch CEO of Master Builders Australia said.

“Zorzi scaled the heights of excellence with their transformation of a decayed heritage listed Federation Style home,” he said.

“Built in 1895, the home was in danger of simply crumbling away and the team at Zorzi excelled with their use of original locally sourced materials to revive the building including the limestone walls and Jarrah flooring,” Wilhelm Harnisch said.

“Intricate features such as ceiling roses and detailed custom built cabinetry also ensures the magnificent iconic home has had its authentic heritage glory retored,” he said.

“Zorzi Builders are thoroughly deserving winners of their National Luxury Alterations/Additions Award for their outstanding skill and workmanship in restoring and renovating the iconic home,” Wilhelm Harnisch said.
