Work Safely at Heights

RIIWH5204D

(The Registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency).

This 1 day course aims to provide participants with the skills and knowledge to Work Safely at Heights. It includes identifying the work requirements; work procedures and instructions for the task; accessing and installing equipment; performing work at heights and cleaning up with work area. There is no pre-requisite for this course, however it is recommended that you do not have a fear of heights.

On completion of this course you will be able to: -

- Identify work and OHS requirements associated with working safely at heights;
- Identify, manage and report potential risks and hazards associated with working at heights;
- Select and check safety equipment;
- Inspection and/or install fall protection and perimeter protection equipment;
- Ensure correct fitting, adjustment and anchor placement for fall protection equipment;
- Establish safe access to work area, correct manual handling procedures and placement of tools and materials at heights;
- Safety dismantle, inspection and store work at height safety system; and
- Use basic rescue equipment.

Upon successful completion of the assessment requirements you will be issued with a Statement of Attainment for RIIWH5204D Work safely at heights and a Notice of Assessment (interim licence).
