

STRICTLY EMBARGOED UNTIL 11PM ON SEPTEMBER 2, 2017

Dixon Construction wins big for building a medical marvel

Esperance-based builder, Dixon Construction, was the worthy winner of the Best Commercial Building title at this year's Master Builders-Bankwest Building Excellence Awards for the Goldfields-Esperance region.

The leading construction company, which operates successfully in both the residential and commercial/industrial sectors, impressed the judges with its work on the Recherche Medical Centre.

Create premises that will stand out and reflect Esperance's beautiful surrounds was the brief the clients gave their award-winning builder – and Dixon Construction certainly delivered.

Light blue and dark blue panels were combined to give the facade a big wow factor and pay homage to the seaside shire.

The 400sq m facility sits on an 800sq m site that included extensive retaining walls and soil retention systems. It was purpose-built to accommodate six full-time doctors, two full-time nurses, a practice manager and support staff. It also has a treatment room that can be used for minor medical procedures.

Master Builders Executive Director Michael McLean said Dixon Construction had built an enviable reputation in the Goldfields-Esperance region and deserved its latest success.

"Constructing any building has its challenges, so to win our Best Commercial/Industrial Building award demonstrates that the Dixon Construction team is at the top of their game," Mr McLean said.

"It's a credit to the builder and the local trades to be able to deliver high-quality workmanship for their clients."

The 2017 Master Builders-Bankwest Building Excellence Awards for the Goldfields-Esperance region were announced during a gala event at the Esperance Turf Club on September 2.
